☐ Put your name on each part of your kit.
☐ Use your fraction kit to compare the sizes of different fractions and for Fraction Cover Up and other fraction activities.

More Ideas

Equivalent Fractions are easily shown with these kits. For example, 1 WHOLE is the same as 2/2, 3/3, 4/4, etc. Explore with your children some other equivalent fractions, using your strips to check. Keep a record like this:

\[
\frac{1}{2} \text{ is the same as } \frac{2}{4} \text{ or } \frac{4}{8} \text{ or } \frac{8}{16}
\]

\[
\frac{1}{3} \text{ is the same as } \frac{2}{6} \text{ or } \frac{4}{12} \text{ or } \frac{6}{18}
\]

\[
\frac{1}{4} \text{ is the same as } \frac{2}{8} \text{ or } \frac{4}{16} \text{ or } \frac{6}{32}
\]
